How to Handle it with perfect precision and results

how to handle it with perfect precision and results

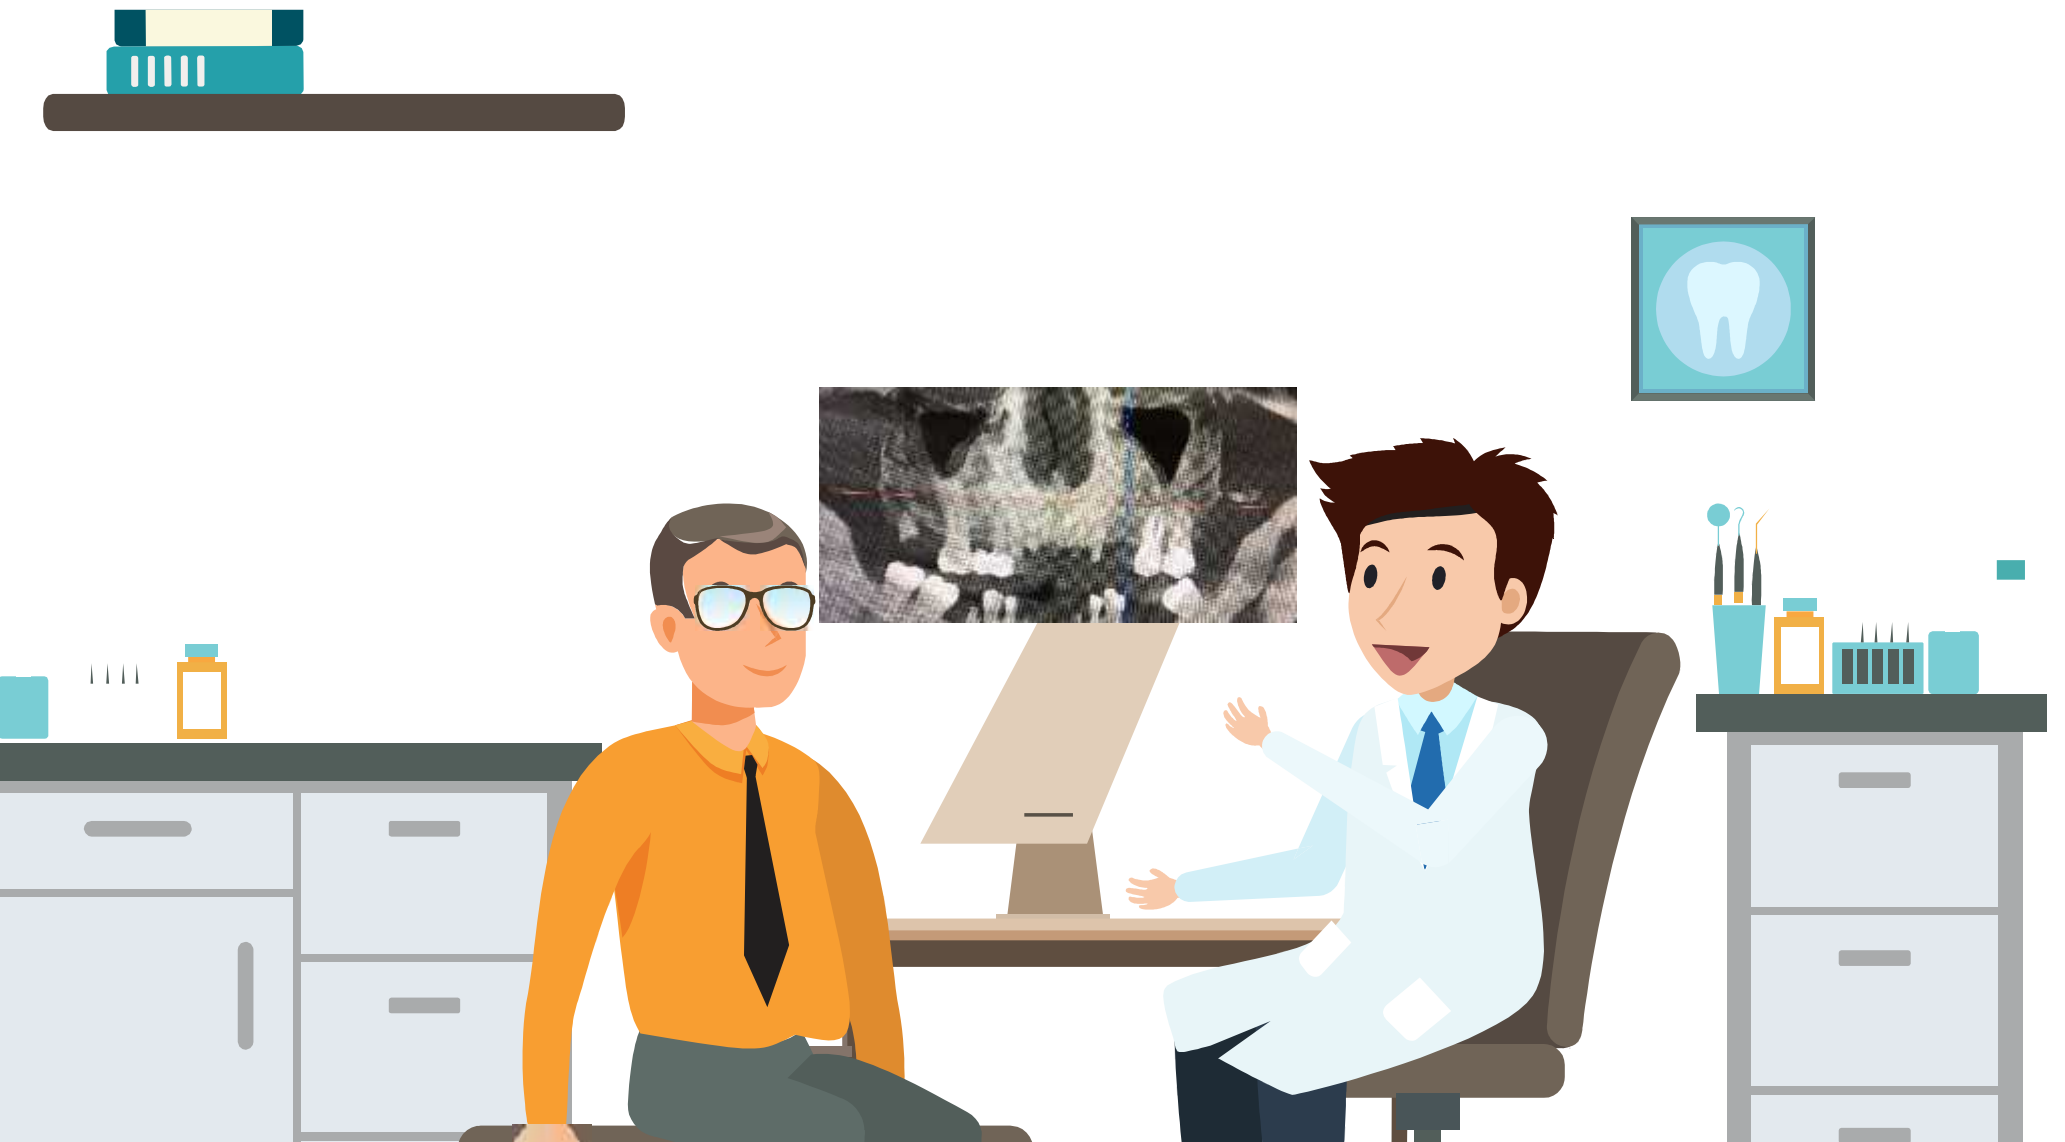

The patient's bone conditions through 3D CBCT, GUIDE DOC finds the healthiest best implant location and recommend it to the Doctor,

The background is a solid teal color. It features several white, stylized teeth scattered around the edges. In the center, there are several white circles of varying sizes, some of which overlap the text. The text is in a bold, black, sans-serif font, arranged in five lines.

**WE MAKE IT DECISION FOR YOU
THE INFORMATION
ON THE IMPLANT'S DIAMETER,
LENGTH, AND ANGLE ACCURATELY
INCLUDING DRILLING PROTOCOL**

Most of all, Flapless surgery can be the best option for diabetics.

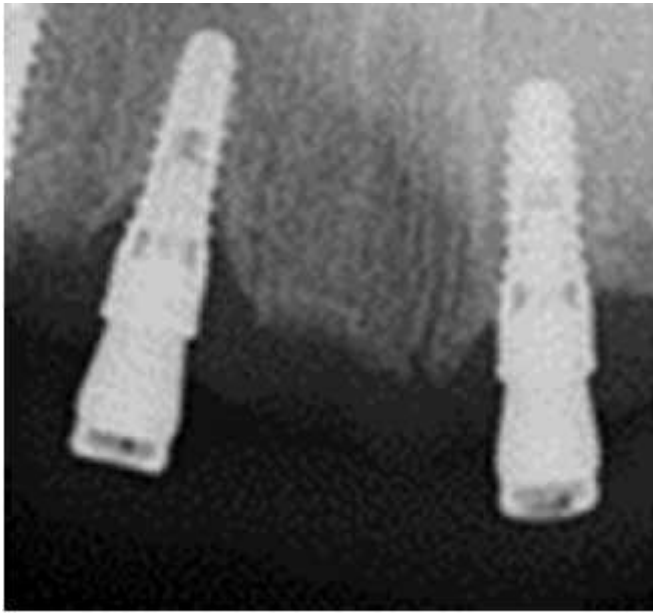

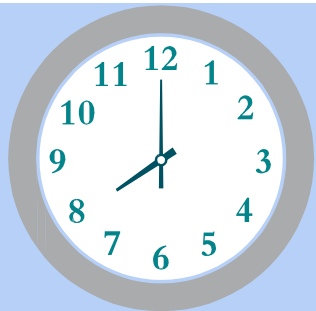

With our assistance, the most difficult for beginners is completely omitted.

BASED ON THE CBCT & SCAN FILE PROVIDED BY THE DOCTOR

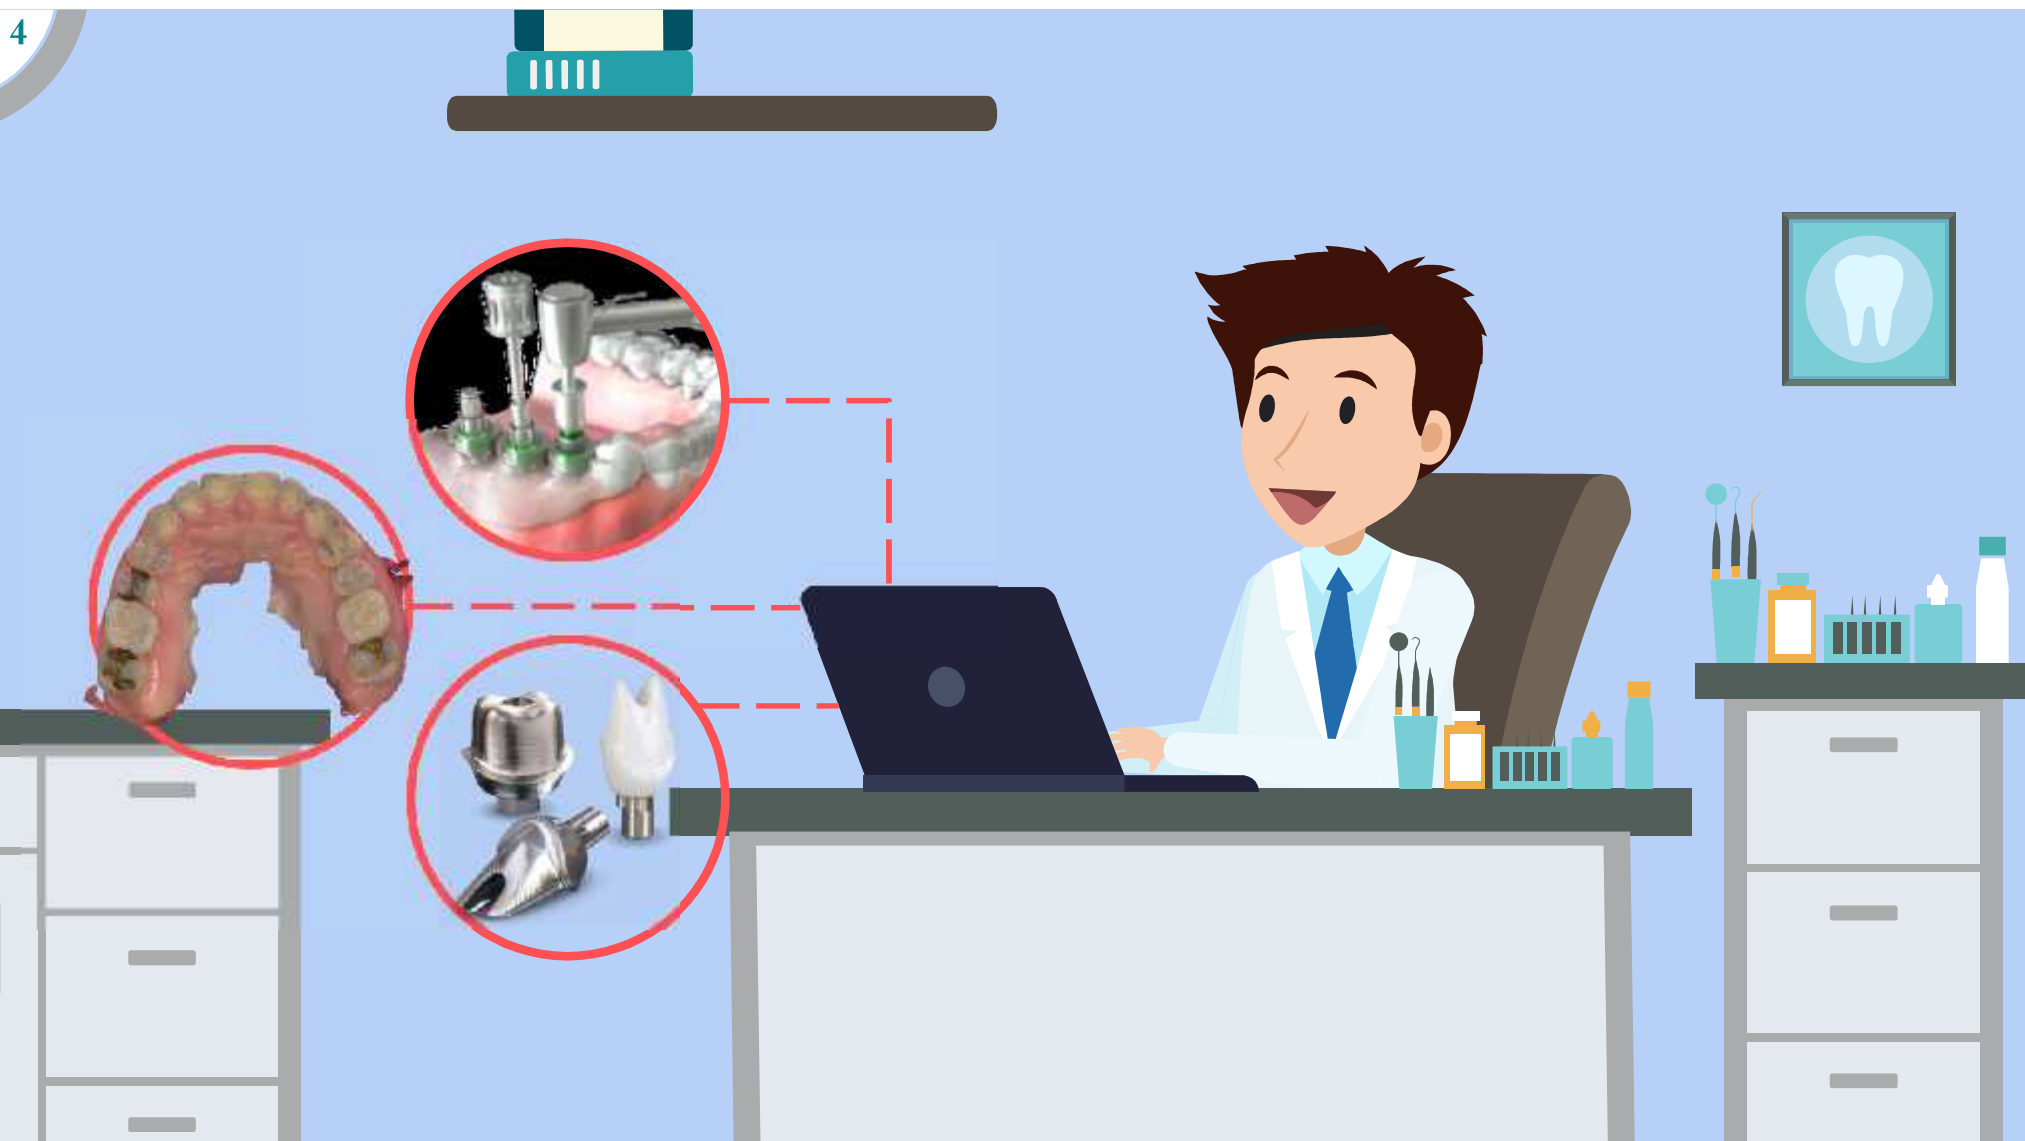

Based on the CT& Scan file provided by the Doctor,

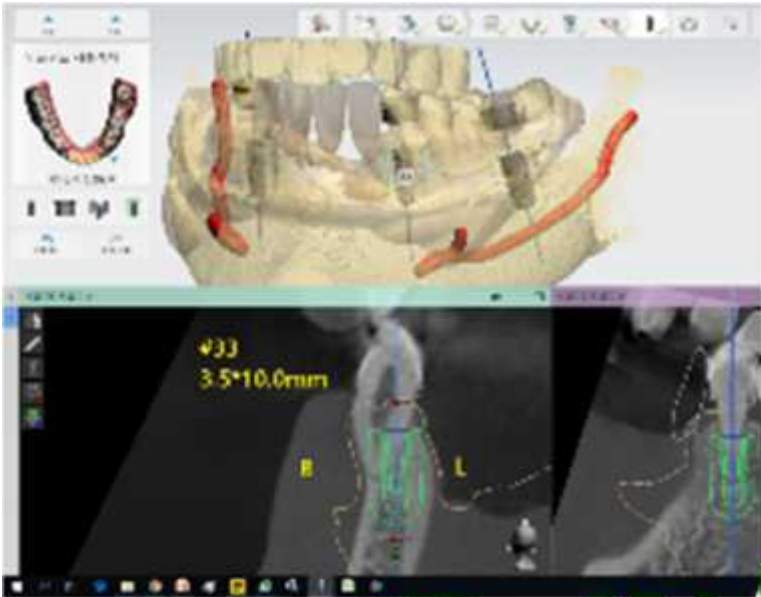

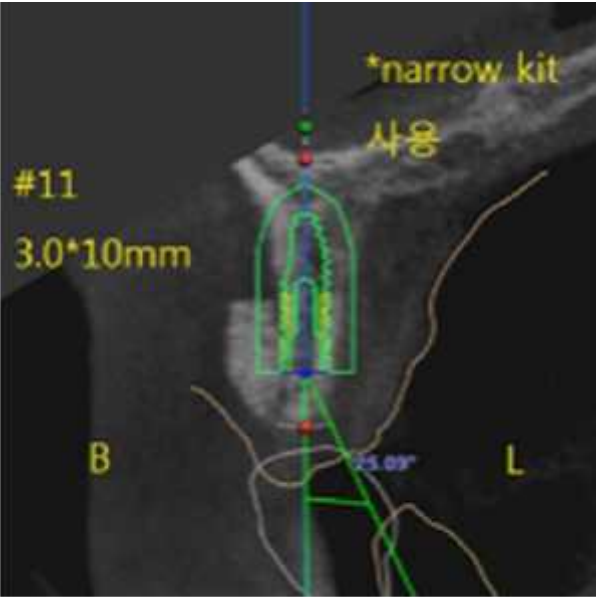

we make the best surgical plan with drilling protocol that will be your perfect assistance throughout the procedure, guiding your hand.

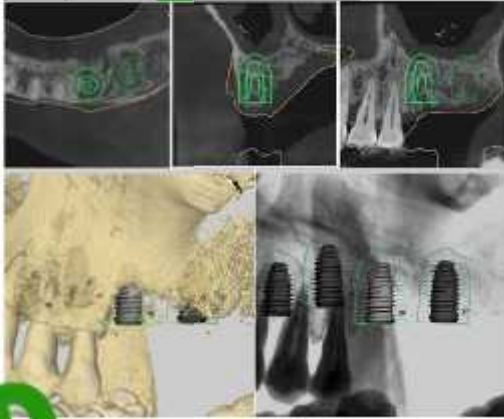

The surgical plan, which is provided to the Dentist, is delivered together to Guide, implants, custom abutment, and even Crown if it is required.
